Summary

Creative strategist from a direct-response background. Three of my ad scripts beat every script from two paid ad agencies and held the top 3 spots in the account for over 3 years. Across the account, my ads generated seven figures in sales. I start with what customers actually say, turn it into personas and angles, write the ads that test them, then read the data to decide what comes next.

Selected Results

- **Beat two paid ad agencies:** three of my scripts beat every one of theirs and held the top 3 spots for 3+ years. My ads generated 7 figures in sales.
- **$10–20K back to $200K a month:** diagnosed tired angles and the wrong persona, then rebuilt the ads and emails.
- **$120,000 to over $1.8 million a year:** growth of a high-ticket consulting offer during my four years in-house.
- **4,000+ calls booked and about $4.6M in sales** from book-a-call funnels for a high-ticket coach.

Experience

Creative Strategist (Independent)

DTC brands | 2026 to present

- Diagnose why a brand's ads plateau: audit its live ads against reviews, Reddit and forums to find the buyers the account isn't reaching.
- Turn persona and angle gaps into a testing roadmap: concepts, hooks and creator-ready briefs.
- Iterate on proven winners first (new hooks, formats and personas), then test new concepts.
- Write UGC, founder-led and mini-VSL scripts, AI-animated ads and native statics.
- Audits in portfolio: Spacegoods (functional coffee), Stepprs (insoles), First Day (teen supplement).

Direct-Response Copywriter & Ad Scriptwriter (In-House)

High-ticket property consulting | May 2022 to May 2026

- Researched and wrote the ad scripts behind the 7-figure result above, and tested new concepts and personas with the media buyer: doubled down on winners, cut the losers.
- Ran email, sales pages and book-a-call funnels. Wrote a Kajabi sales page that stayed the control for a year.
- The offer grew from $120,000 a year to over $1.8 million a year.

Direct-Response Copywriter (Freelance)

High-ticket coaches | since 2020

- Long-form direct response for high-ticket coaches, including Dan Lok: sales pages, emails and ad scripts.
